

Wedding Checklist

Look amazing on the big day! Start planning ahead, get yourself on a countdown regimen and leave the “beautiful you” to us.

5 months prior-Begin a skin care regimen

Schedule a consultation with one of our skin care specialists to determine the best plan for your skin care needs. This may include peels, facials, waxing, etc.

Our experts will help you discover the best and most effective ways to meet and exceed your goals.

4 months prior- Manicures and Pedicures

If you plan on having natural nails begin monthly manicures and pedicures. This will ensure your nails are strong and look flawless.

If you plan to have artificial nails it is a good time to start trying out different shapes and lengths that you would like for the wedding.

3 months prior- Schedule all needed wedding appointments

This is the time to schedule all your trial and wedding day appointments if you have not already scheduled them. Don't forget about scheduling the groom for his appointments too.

2 months prior-Research hairstyles and makeup

Research hair and makeup styles prior to coming in for your trial appointments. You can find excellent examples in bride magazines and online. While you are looking for styles you like make sure to look for styles you don't like as well, it is always good to bring examples of styles you don't like so the stylist can help you determine the best look for you.

1 month prior-Trial run

Complete trial run of hair and makeup. This will give you enough time before the big day if you want to make any changes or try other styles. (Don't forget to bring a camera to this appointment).

2 Weeks prior- Almost there

Get your final facial or skin care treatment done

1 week prior-Finishing touches

Get a touch up on your hair color and add a glossing treatment to make your hair extra shiny, and have any waxing services done. Have the groom get his hair cut cleaned up and any waxing as well.

2 days prior-Relax

Come in for a relaxing massage or body treatment. We recommend the Caribbean therapy treatment; it leaves your skin smooth and glowing. Also get your final manicure, pedicure, or fill.

Wedding Day!!

Come in for all hair and makeup services...Relax and enjoy your day...We'll take care of the rest.
